Vltava Restaurant hosts the Health Food Festival

For the first time ever, the President Hotel's Vltava Restaurant is participating in the Health Food Festival which is one of several events accompanying the Prague International Marathon. Take this opportunity to come to the Vltava Restaurant between May 6th – June 30th, 2010 and you will find out just how tasty healthy food can be!

The objective of both the Health Food Festival and the Vltava Restaurant is to stress the importance of living a healthy lifestyle. According to the well-known proverb which says: „A sound mind in a sound body“, there is a great feeling of happiness and well-being that comes from a healthy body, and this goes hand in hand with quality healthy and tasty food.

Milan Pesek, Executive Chef of the Vltava Restaurant, has prepared a special „**Health Food Festival Menu**“ which is sure to please vegetarians and those on a gluten-free diet as well as meat and dessert lovers. Healthy food doesn't have to mean green salad and a few seeds, but can include balanced and well prepared dishes, such as, for example, baked gilthead seabream served with truffle risotto and baby asparagus or a pancake made of gluten-free flour with poppy seeds and strawberry topping. And that's not all – guests of the Vltava Restaurant can avail themselves of a special „**Health Drink Menu**“ that offers fresh fruit juices, mineral water, different kinds of herbal tea, various coffees, and bio wines that have a unique taste but are free of any chemical additives.

All of the festival guests can take advantage of our *special prices for two and three course menus* and discount voucher holders can benefit from a free starter, soup or dessert, provided that they order a main course.

The team from the President Hotel's Vltava Restaurant is looking forward to welcoming fans of a healthy lifestyle! For more information about the Vltava Restaurant's Health Food Festival offer visit www.hotelpresident.cz. For more information about the Festival visit www.healthfoodfestival.com.

- Základní kámen hotelu President byl položen roku 1928 z rozhodnutí Sdružení inženýrů a architektů (SIA) jako základ budoucího sídla organizace. V roce 1978 bylo atraktivní místo vedle budovy patřící SIA vybráno pro zbudování velkolepého hotelu Budovatel. Ihned poté, co byl hotel dokončen, byl spojen s budovou SIA. V roce 1984 byla budova přestavěna v tzv. monolitickém stylu.
- Od roku 1992 je vlastníkem hotelu Budovatel španělská firma Comar, která provozuje síť luxusních kasin po celém světě. Zakládá společnost President Hotels, s.r.o. a název hotelu se tak mění na President Hotel Praha. V roce 2002 během ničivých povodní byl hotel President vážně poškozen a musel být uzavřen. Rekonstrukce byla zahájena 1. srpna 2003 a byla ukončena téměř přesně za rok 6. srpna 2004, kdy byl hotel znovu otevřen.
